

Information For the User  
Methylcobalamin (1000mcg) + Niacinamide (100mg) + Vitamin B6 (100mg) Injection

# Nuroclip Forte Injection

Nuroclip Forte Injection

**Dosage Form:** Injection

**Composition:**

Each 2 ml contains:

Methylcobalamin I.P. 1000 mcg

Niacinamide I.P. 100 mg

Pyridoxine Hydrochloride I.P. (Vitamin B6) 100 mg

**Description:**

Nuroclip Forte Injection is a neurotropic vitamin formulation containing Methylcobalamin, Niacinamide, and Pyridoxine. It is used in the management of neuropathies and vitamin B deficiency states. The combination supports nerve regeneration, improves nerve conduction, and helps relieve symptoms such as numbness, tingling, and nerve pain associated with nerve damage and deficiency disorders.

**Indications:**

Peripheral neuropathy

Diabetic neuropathy

Vitamin B deficiency

Neuralgia and neuritis

Supportive therapy for nerve regeneration

**Dosage & Administration:**

Dosage should be administered as directed by the physician.

The injection is given intramuscularly or intravenously under medical supervision.

**Pharmacological Action:**

Methylcobalamin plays a key role in myelin sheath formation and nerve regeneration, improving nerve function.

Niacinamide supports cellular metabolism and helps maintain healthy nerve tissue.

Pyridoxine (Vitamin B6) is involved in neurotransmitter synthesis and supports normal nerve function.

The combination provides neuroprotective and neuroregenerative benefits.

**Side Effects:**

Pain at injection site

Nausea

Headache

Rare allergic reactions

**Precautions & Warnings:**

Use under medical supervision only.

Use cautiously in patients with hypersensitivity to vitamin B preparations.  
Excessive or prolonged use should be avoided unless prescribed.

**Drug Interactions:**

May interact with certain antibiotics, levodopa, and other vitamin supplements.  
Consult physician before using with other medications.

**Storage:**

Store below 25°C in a dry place.  
Protect from light.  
Keep out of reach of children.
