

Aceflick P Suspension

Aceclofenac 50mg + Paracetamol 125mg Suspension

Product Description

Aceclofenac + Paracetamol suspension is a combination medication used for pain relief and reducing inflammation. It is commonly prescribed for fever, mild to moderate pain, and inflammatory conditions in children. This formulation effectively combines the analgesic and anti-inflammatory properties of aceclofenac with the antipyretic and pain-relieving effects of paracetamol, making it a well-balanced treatment option.

Composition (Per 5ml Suspension)

- **Aceclofenac** – 50 mg
- **Paracetamol** – 125 mg

Mechanism of Action

- **Aceclofenac:** A nonsteroidal anti-inflammatory drug (NSAID) that works by inhibiting the production of prostaglandins, which are responsible for pain and inflammation.
- **Paracetamol:** A well-known analgesic and antipyretic that reduces fever and relieves pain by inhibiting prostaglandin synthesis in the brain.

Indications

This suspension is recommended for the treatment of:

- Fever and mild to moderate pain
- Musculoskeletal pain and inflammation
- Post-vaccination fever in children
- Dental pain and teething discomfort
- Ear and throat infections causing pain and inflammation
- Joint and soft tissue injuries

Dosage and Administration

- **Children (6 months – 2 years):** 2.5ml, 2-3 times a day
- **Children (2 – 6 years):** 5ml, 2-3 times a day
- **Children (6 – 12 years):** 10ml, 2-3 times a day
- Or as prescribed by a physician

Contraindications

- Hypersensitivity to aceclofenac, paracetamol, or any excipients
- Severe liver or kidney impairment
- History of gastrointestinal bleeding or ulcers
- Patients with asthma induced by NSAIDs

Side Effects

- Nausea, vomiting, or diarrhea
- Abdominal discomfort or acidity
- Allergic reactions such as rashes or itching
- Dizziness or drowsiness (rare)

Precautions and Warnings

- Should be taken with food or milk to prevent gastric irritation
- Avoid use in children with a history of liver disorders
- Do not exceed the prescribed dose to prevent liver toxicity
- Use with caution in patients with kidney impairment

Storage Instructions

- Store at room temperature, away from direct sunlight and moisture
- Keep out of reach of children

This suspension is an effective and safe option for managing pain, fever, and inflammation in children when used as directed by a healthcare professional.
