

Information For the User
Ammonium Chloride (7mg/5ml) + Noscapine (1.83mg/5ml) + Sodium Citrate (0.67mg/5ml) Syrup

Cufsniff NP Junior Syrup

Brand Name: Cufsniff NP Junior Syrup

Dosage Form: Syrup

Composition:

Each 5 ml contains:

- Ammonium Chloride IP 7 mg
- Noscapine IP 1.83 mg
- Sodium Citrate IP 0.67 mg

Description:

Cufsniff NP Junior Syrup is a combination of expectorant and antitussive agents indicated for the management of cough associated with respiratory tract disorders. It helps in thinning and loosening mucus, suppressing non-productive cough, and soothing the airways for symptomatic relief in pediatric patients.

Indications:

Indicated for the treatment of:

- Cough associated with common cold, bronchitis, and upper respiratory tract infections
- Dry or non-productive cough where mucus expectoration is required

It helps in relieving throat irritation, reducing cough frequency, and facilitating easier expectoration.

Dosage & Administration:

Dosage should be as directed by the physician.

Shake well before use.

Use a calibrated measuring cup or spoon for accurate dosing.

Suitable for pediatric use; adjust dose according to age and weight.

Pharmacological Action:

- **Ammonium Chloride** acts as an expectorant, increasing bronchial secretion and facilitating mucus clearance.
- **Noscapine** is a non-narcotic antitussive that suppresses the cough reflex centrally without causing sedation.
- **Sodium Citrate** acts as a mild alkalinizing agent, aiding in the thinning of respiratory secretions.

Side Effects:

Generally well tolerated.

Possible side effects include mild gastrointestinal discomfort, nausea, or drowsiness in sensitive patients.

Precautions & Warnings:

- Use with caution in patients with hepatic or renal impairment
- Not recommended for children under 2 years unless prescribed by a physician
- Use under medical supervision in pediatric patients with chronic cough or asthma

Drug Interactions:

Concomitant use with CNS depressants may enhance sedative effects.

Consult a physician before combining with other cough or cold preparations.

Storage:

Store below 25°C in a cool, dry place.

Protect from light and moisture.

Keep out of reach of children.
