

Asprole 100

Tablets

Aspirin I.P 100mg.

Antiplatelet Action

Inhibits platelet aggregation to help prevent blood clots and reduce the risk of blockages.

Cardiovascular Protection

Helps in the prevention of heart attack, stroke and other cardiovascular events.

Supports Blood Flow

Promotes healthy blood circulation by reducing platelet clumping.

Stroke Prevention

Reduces the risk of ischemic stroke by preventing clot formation.

Once Daily Convenience

Low dose, once daily tablet for easy compliance and long-term use.

Indications

Prevention of
Heart Attack

Prevention of
Ischemic Stroke

Secondary Prevention
of Cardiovascular Events

Post-PCI / Post-CABG
Management

Peripheral Arterial
Disease (PAD)
