

Information For the User
AZELNIDIPINE 8mg

Azline 8 Tablet

Azline 8 Tablet – Effective Hypertension Management

Composition:

Each **Azline 8 Tablet** contains:

- **Azelnidipine 8 mg** – A long-acting calcium channel blocker (CCB) for blood pressure control.

Description:

Azline 8 Tablet is an antihypertensive medication that works by **relaxing blood vessels, improving blood flow, and reducing vascular resistance**. It belongs to the **dihydropyridine calcium channel blocker (CCB)** class and provides **24-hour blood pressure regulation** with minimal reflex tachycardia.

Pharmacological Action:

- **Reduces high blood pressure (hypertension)** by dilating blood vessels.
- **Provides long-lasting control** with a once-daily dose.
- **Minimizes reflex tachycardia** and **reduces cardiovascular risks**.

Indications:

Azline 8 Tablet is prescribed for:

- **Mild to Moderate Hypertension**
- **Cardiovascular Risk Reduction** in hypertensive patients

Dosage & Administration:

- **Usual Dose:** One tablet **once daily**, preferably in the morning.
- Can be taken **with or without food**.
- Dosage may be adjusted as per a physician's advice.

Contraindications:

- Allergy to **Azelnidipine** or related compounds.
- Severe **hepatic impairment**.
- **Hypotensive patients** (low blood pressure).

Warnings & Precautions:

- Use with caution in **patients with liver disease or heart failure**.
- **May cause dizziness**; avoid driving or operating heavy machinery until effects are known.
- Regular **blood pressure monitoring** is advised.

Adverse Effects:

- **Common:** Dizziness, headache, flushing, mild swelling of ankles.
- **Rare:** Nausea, palpitations, mild fatigue.

Drug Interactions:

- Avoid **grapefruit juice**, as it may increase drug levels.
- Use cautiously with **other antihypertensive medications** to prevent excessive BP lowering.
- Possible interaction with **CYP3A4 inhibitors** (such as erythromycin, ketoconazole).

Storage Conditions:

- Store below **30°C**, in a dry place.
- Protect from **moisture and direct sunlight**.
- Keep out of reach of children.

Conclusion:

Azline 8 Tablet is a reliable **antihypertensive solution** offering **24-hour blood pressure control** with a **well-tolerated profile**. It is ideal for **mild to moderate hypertension** and helps reduce the risk of **cardiovascular complications**.
