

Beniflip 4 Tablet

Beniflip 4 Tablet

Composition:

Each tablet contains:

- **Benidipine Hydrochloride IP** – 4 mg
- **Excipients** – q.s.

Description:

Beniflip 4 Tablet contains **Benidipine**, a **long-acting calcium channel blocker (CCB)** belonging to the **dihydropyridine class**. It helps in **lowering blood pressure** by **relaxing blood vessels**, improving blood flow, and reducing the **workload on the heart**.

Indications:

- **Hypertension (high blood pressure)**
- **Chronic stable angina**
- **Prevention of cardiovascular complications**

Dosage & Administration:

- **Usual dose:** One tablet **once daily**, or as prescribed by a physician.
- Can be taken **with or without food**, at the same time each day.

Contraindications:

- **Hypersensitivity to Benidipine or any excipients**
- **Severe liver or kidney impairment**
- **Pregnancy and lactation**

Warnings & Precautions:

- **Monitor blood pressure regularly.**
- **Use with caution in patients with heart failure or coronary artery disease.**
- **Avoid abrupt discontinuation**, as it may lead to rebound hypertension.

Adverse Effects:

- **Dizziness, headache**
- **Flushing, fatigue**
- **Peripheral edema (swelling in legs and ankles)**
- **Hypotension (low blood pressure)**

Storage:

- Store below **30°C**, in a **cool, dry place**, away from moisture and direct sunlight.
- Keep out of reach of **children**.
