

**Dual action relief for pain,  
inflammation & muscle spasm**

# Benzaflit Plus

Cyclobenzaprine (15mg) SR + Aceclofenac (200mg) **Tablet**

- ✓ Provides effective relief from painful muscle spasms by relaxing skeletal muscles and reducing stiffness.
- ✓ Helps in reducing inflammation, swelling, and redness associated with musculoskeletal disorders.
- ✓ Controls moderate to severe pain caused by muscle strain, sprain, or injury.
- ✓ Improves mobility and flexibility by relieving muscle tightness and joint discomfort.
- ✓ Supports faster recovery in acute back pain, neck pain, and sports-related injuries.
- ✓ Enhances patient comfort during movement by offering sustained pain relief throughout the day.

### Indication In :

Low back pain

Muscle spasm

Joint inflammation

Neck pain
