

Powerful Protection
Against Serious Bacterial Infections

Biapair - 300

Biapenem 300gm Injection

- Broad-spectrum carbapenem antibiotic effective against a wide range of Gram-positive and Gram-negative bacterial infections.
- Used in the treatment of severe respiratory tract infections, urinary tract infections, skin and soft tissue infections, and intra-abdominal infections.
- Helps manage complicated and hospital-acquired infections by inhibiting bacterial cell wall synthesis and reducing the spread of infection.
- Provides reliable broad-spectrum antibacterial coverage for the treatment of severe and life-threatening infections in hospitalized patients.
