

# Bisopair A5 Tablet

## Bisopair A5 Tablet

### Composition:

Each tablet contains:

- **Bisoprolol Fumarate IP** – 5mg
- **Amlodipine Besylate IP** eq. to Amlodipine – 5mg
- **Excipients** – q.s.

### Description:

Bisopair A5 Tablet is a **combination of Bisoprolol (beta-blocker) and Amlodipine (calcium channel blocker)**, used for the effective management of **hypertension and angina**. It helps **reduce blood pressure, lower heart rate, and improve blood circulation**, supporting better cardiovascular health.

### Indications:

- **Hypertension (High Blood Pressure)**
- **Chronic Stable Angina**
- **Cardiovascular Risk Reduction**

### Dosage & Administration:

- **One tablet once daily**, or as prescribed by a physician.
- Can be taken **with or without food**, preferably at the same time each day.

### Contraindications:

- **Severe hypotension (low blood pressure)**
- **Bradycardia (slow heart rate)**
- **Cardiogenic shock or heart block**
- **Severe hepatic or renal impairment**

### Warnings & Precautions:

- **Monitor blood pressure and heart rate regularly** to avoid excessive lowering.
- **Caution in diabetic patients**, as Bisoprolol may mask symptoms of hypoglycemia.
- **Avoid sudden discontinuation** to prevent rebound hypertension or angina.

### Adverse Effects:

- **Dizziness, headache, and fatigue**
- **Bradycardia (slow heart rate)**
- **Peripheral edema (swelling in feet or ankles)**

- **Hypotension (low blood pressure)**

**Storage:**

- Store below **30°C**, in a **cool, dry place**, away from moisture and direct sunlight.
- Keep out of reach of **children**.
