

Information For the User  
Budesonide (200mcg) Inhaler

# Buditerm 200 Inhaler

**Brand Name:** Buditerm 200 Inhaler

**Dosage Form:** Inhaler

**Composition:** Budesonide (200 mcg)

**Therapeutic Segment:**  
**Respiratory Care / Anti-Asthmatic Segment**

**Description:**

**Buditerm 200 Inhaler** contains **Budesonide (200 mcg)**, a corticosteroid that helps reduce inflammation in the airways, making it easier to breathe. It is commonly prescribed for the **management and prevention of asthma and chronic obstructive pulmonary disease (COPD)** symptoms.

**It helps in:**

- Preventing and controlling symptoms such as **wheezing, coughing, and breathlessness**
- **Reducing airway inflammation** in asthma and COPD
- **Improving lung function** and breathing comfort

**Key Benefits:**

- Long-term control medication for asthma management
- Reduces frequency and severity of asthma attacks
- Provides effective anti-inflammatory action directly in the lungs

**Usage Direction:**

- Inhale as directed by the physician.
- Rinse mouth after each use to prevent oral infections.

**Storage:**

Store in a cool, dry place away from direct sunlight.  
Keep out of reach of children.
