

Information For the User
Calcium Carbonate (625mg) + Magnesium Hydroxide (180mg) + Zinc Sulphate Monohydrate
(14mg) + Vitamin D3 (200IU) Syrup

Calostyle D3 syrup

Composition:

Each 5 ml syrup contains:

Calcium Carbonate – provides elemental calcium for bone health

Magnesium Hydroxide – supports calcium absorption and maintains neuromuscular function

Zinc – essential for tissue growth and repair

Vitamin D3 (Cholecalciferol) – enhances calcium absorption and bone mineralisation

Excipients q.s.

Description:

Calostyle D3 Syrup is a nutritional supplement that helps in maintaining healthy bones, teeth, and muscles. It provides a balanced combination of calcium, magnesium, zinc, and vitamin D3 — nutrients essential for bone formation, mineralisation, and repair. It is especially beneficial in conditions where the dietary intake of these nutrients is insufficient.

It helps in prevention and management of calcium and vitamin D3 deficiency, osteoporosis, osteomalacia, rickets, and other bone-related disorders. The combination also aids in faster fracture healing and supports growth in children and adolescents.

Indications:

Calcium & vitamin D3 deficiency

Osteoporosis and osteopenia

Fracture healing support

Growth support in children and adolescents

Pregnancy and lactation nutritional support

Dosage and Administration:

As directed by the physician — generally 5–10 ml once or twice daily

Shake well before use

Side Effects:

Generally well tolerated

Occasionally: constipation, bloating, metallic taste

Excessive intake may cause hypercalcaemia or hypermagnesaemia

Precautions:

Avoid overdose to prevent mineral imbalance

Use with caution in renal impairment

Monitor serum calcium in long-term therapy

Storage:

Store below 25°C in a cool, dry place

Protect from light and moisture

Keep out of reach of children

Manufactured in India for:
