

Information For the Use

Aluminium Hydroxide (830mg/10ml)
+ Carboxymethylcellulose
(100mg/10ml) + Magnesium
Hydroxide (185mg/10ml) +
Simethicone (50mg/10ml) Mint
Flavour

Clipgyn Syrup

Aluminium Hydroxide + Carboxymethylcellulose + Magnesium Hydroxide + Simethicone Syrup (Mint Flavour)

Overview

This **antacid and anti-flatulent syrup** is designed to relieve symptoms of **acidity, gas, bloating, and indigestion**. It provides a **soothing, protective coating** for the stomach lining while neutralizing excess stomach acid and reducing discomfort caused by gas buildup. The mint flavor enhances palatability for ease of consumption.

Composition (Per 10 mL Syrup)

- **Aluminium Hydroxide (830 mg):** Neutralizes stomach acid and forms a protective coating on the stomach lining.
- **Magnesium Hydroxide (185 mg):** Acts as an antacid and mild laxative, balancing the effects of Aluminium Hydroxide.
- **Carboxymethylcellulose (100 mg):** Provides a soothing, protective layer on the stomach lining to reduce irritation.
- **Simethicone (50 mg):** Reduces gas formation and bloating by breaking down gas bubbles in the stomach and intestines.

Mechanism of Action

- **Acid Neutralization:** Aluminium and Magnesium Hydroxide work together to **reduce acidity** and provide relief from heartburn and indigestion.
- **Mucosal Protection:** Carboxymethylcellulose forms a **soothing barrier** that protects the stomach lining from irritation.
- **Gas Reduction:** Simethicone helps **break down gas bubbles**, reducing bloating and discomfort.

Indications & Uses

- ✓ **Acid reflux & heartburn** – Relief from excess stomach acid.
- ✓ **Gastritis & indigestion** – Soothes irritation and discomfort.
- ✓ **Bloating & gas** – Reduces gas buildup and relieves stomach distension.
- ✓ **Peptic ulcers & gastric irritation** – Forms a protective layer over inflamed areas.

Dosage & Administration

- **Adults: 10-20 mL** after meals or as prescribed by a healthcare provider.
- **Children:** Dosage to be determined by a doctor.
- **Shake well before use.** Take with or without water.

Precautions & Contraindications

⚠ **Avoid in:**

- Severe kidney disease or **renal impairment**.
- **Hypersensitivity** to any of the ingredients.
- Chronic **diarrhea or dehydration** (due to Magnesium Hydroxide's mild laxative effect).

TM: Trademark Applied for

⚠ Use with caution in:

- Patients with **electrolyte imbalances** or on medications affecting kidney function.
- Long-term use should be monitored to prevent **mineral imbalances**.

Possible Side Effects

- **Constipation or diarrhea** (depending on individual tolerance).
- **Nausea or mild stomach discomfort**.
- **Altered taste** due to aluminium and magnesium compounds.
- **Rare allergic reactions** like rash or breathing difficulty (seek medical attention if severe).

Storage & Handling

- Store at **room temperature (15-30°C)**, away from direct sunlight.
- **Keep tightly closed** and shake well before use.
- **Do not freeze** or expose to extreme temperatures.

Conclusion

This **mint-flavored antacid syrup** offers effective relief from **acidity, gas, bloating, and digestive discomfort**. Its **balanced formulation** provides **quick symptom relief** while protecting the stomach lining. Best taken after meals for **optimal effect** under the guidance of a healthcare professional.
