

Clopidile 150 Tablet

Clopidile 150 Tablet

Composition:

Each film-coated tablet contains:

- **Clopidogrel Bisulphate IP** eq. to Clopidogrel – 150mg
- **Excipients** – q.s.

Description:

Clopidile 150 Tablet is an **antiplatelet medication** that helps prevent **blood clots** in individuals at risk of heart attacks, strokes, and other cardiovascular diseases. It works by **inhibiting platelet aggregation**, reducing the risk of thrombosis.

Indications:

- Acute Coronary Syndrome (ACS)
- **Prevention of ischemic stroke and transient ischemic attacks (TIAs)**
- Peripheral Artery Disease (PAD)
- Post-percutaneous coronary intervention (PCI) and stenting

Dosage & Administration:

- One tablet **once daily** or as directed by the physician.
- Can be taken **with or without food**.

Contraindications:

- **Active bleeding disorders** (peptic ulcers, intracranial hemorrhage)
- **Severe liver impairment**
- **Hypersensitivity to Clopidogrel or related drugs**

Warnings & Precautions:

- Use with caution in patients with **bleeding disorders**.
- Regular monitoring for **signs of excessive bleeding** is recommended.
- Avoid **NSAIDs and alcohol** to minimize the risk of gastrointestinal bleeding.

Adverse Reactions:

- **Bleeding complications** (bruising, nosebleeds, gastrointestinal bleeding)
- **Gastrointestinal disturbances** (nausea, dyspepsia, diarrhea)
- **Rare allergic reactions** (rash, itching)

Storage:

- Store in a **cool, dry place** below **30°C**, away from direct sunlight and moisture.
- Keep out of reach of **children**.
