

Information For the User
Paracetamol 325mg + Phenylephrine 5mg + Caffeine 30mg + Diphenhydramine 25mg

Coldstave PD

Coldstave PD Tablet

Composition:

Each uncoated tablet contains:

- **Paracetamol IP** – 325 mg
- **Phenylephrine Hydrochloride IP** – 5 mg
- **Caffeine Anhydrous IP** – 30 mg
- **Diphenhydramine Hydrochloride IP** – 25 mg
- Excipients – q.s.

Description:

Coldstave PD Tablet is a fixed-dose combination formulated to relieve multiple symptoms of cold and flu. It helps reduce fever, nasal congestion, headache, sneezing, and allergic symptoms. The combination includes an analgesic-antipyretic (Paracetamol), a nasal decongestant (Phenylephrine), a stimulant (Caffeine), and an antihistamine (Diphenhydramine).

Indications:

- Common cold
- Allergic rhinitis
- Nasal congestion
- Fever and body ache associated with upper respiratory infections

Dosage and Administration:

Adults and children above 12 years: As prescribed by the physician.

Not recommended for children under 12 years.

Contraindications:

- Hypersensitivity to any component
- Severe hypertension or coronary artery disease
- Glaucoma
- Severe hepatic impairment

Precautions and Warnings:

- May cause drowsiness. Avoid alcohol, driving, or operating heavy machinery.
- Use with caution in patients with hypertension, diabetes, thyroid disorders, or prostate enlargement.
- Prolonged use may lead to liver damage due to Paracetamol.

Drug Interactions:

Should be used cautiously with other CNS depressants, MAO inhibitors, and drugs affecting hepatic metabolism.

Adverse Effects:

Drowsiness, dry mouth, dizziness, nausea, palpitations, insomnia.

Storage:

Store in a cool, dry, and dark place below 25°C. Protect from light and moisture.

Keep out of reach of children.
