

Clear Congestion For Smooth Air Flow

CufsniffTM BR

Syrup

Terbutaline Sulphate I.P. 1.25mg + Bromhexine HCL
I.P. 2mg + Guaiphenesin I.P. 50mg + Menthol I.P. 0.5mg

Bromhexine

- Mucolytic agent that reduces the viscosity of mucus makes the phlegm thinner and less sticky.

Terbutaline

- Works by relaxing certain muscles, they open up airways in lungs, is used for regular treatment of breathing disorders like asthma. It helps to relieve tightening of chest and difficulty breathing (bronchospasm)

Guaiphenesin

- Increases respiratory tract fluid and reduces the viscosity of tenacious secretion and acts as an expectorant. Very effective in both productive and nonproductive cough.

Menthol

- Provides desired soothing effect to inflamed mucosa & throat.

Indications

COPD

Bronchial Asthma

Emphysema

Chronic Bronchitis
