

Information For the User
Ambroxol (7.5mg) + Guaifenesin (12.5mg) + Terbutaline (0.25mg) Drop

Cufstik AM Drop

Brand Name: Cufstik AM Drop

Dosage Form: Oral Drops

Composition:

Each 1 ml contains:

- Ambroxol Hydrochloride IP 7.5 mg
- Guaiphenesin IP 12.5 mg
- Terbutaline Sulphate IP 0.25 mg

Description:

Cufstik AM Drop is a combination of a mucolytic, expectorant, and bronchodilator indicated for the management of productive cough associated with respiratory disorders. It helps in thinning bronchial secretions, facilitating mucus clearance, and relaxing bronchial smooth muscles for improved breathing.

Indications:

Indicated for the treatment of:

- Productive cough
- Acute and chronic bronchitis
- Bronchial asthma with mucus plugging
- Other respiratory conditions associated with thickened mucus

It helps in loosening mucus, relieving bronchospasm, and promoting effective expectoration.

Dosage & Administration:

Dosage should be as prescribed by the physician.

Use a calibrated dropper for accurate dosing.

Shake well before use.

Pharmacological Action:

Ambroxol acts as a mucolytic by reducing the viscosity of bronchial secretions. Guaiphenesin acts as an expectorant by increasing the volume and reducing adhesiveness of respiratory secretions, facilitating their removal. Terbutaline is a selective β_2 -adrenergic agonist that relaxes bronchial smooth muscle, producing bronchodilation.

Side Effects:

Generally well tolerated.

Occasionally, nausea, vomiting, tremors, palpitations, or mild gastrointestinal discomfort may occur.

Precautions & Warnings:

- Use with caution in patients with cardiovascular disorders
- Use under medical supervision in pediatric patients
- Do not exceed the recommended dosage

Drug Interactions:

Concomitant use with other sympathomimetic agents should be done with caution. No clinically significant interactions have been reported when used as directed.

Storage:

Store below 25°C in a cool, dry place.

Protect from light and moisture.

Keep out of reach of children.
