

Information For the User
Levosalbutamol 1mg + Ambroxol 30mg + Guaifenesin 50mg Syrup

Cufstik LS Syrup

Brand Name: Cufstik LS Syrup

Dosage Form: Syrup

Composition:

Each 5 ml contains:

- **Levosalbutamol IP 1 mg**
- **Ambroxol HCl IP 30 mg**
- **Guaifenesin IP 50 mg**

Description:

Cufstik LS Syrup is a combination antitussive, mucolytic, and expectorant used for the management of cough and respiratory tract disorders. It helps in **relieving bronchospasm, thinning mucus, and facilitating its expectoration.**

Indications:

Indicated for the treatment of:

- Productive cough associated with bronchitis, asthma, or other respiratory conditions
- Bronchospasm and wheezing

It helps in **improving airway patency and reducing cough severity.**

Dosage & Administration:

Dosage should be individualized as directed by the physician.

Adults: 5–10 ml 2–3 times daily

Pediatrics: Dose as per physician's recommendation

Shake well before use.

Pharmacological Action:

- **Levosalbutamol:** Selective β_2 -adrenergic agonist that relaxes bronchial smooth muscles, relieving bronchospasm
- **Ambroxol:** Mucolytic agent that enhances mucus clearance and improves ciliary function
- **Guaifenesin:** Expectorant that thins and loosens mucus in the airways

Side Effects:

Mild nausea, headache, or transient tremor may occur in some patients

Precautions & Warnings:

- Use with caution in patients with cardiovascular disorders, hyperthyroidism, or diabetes
- Monitor for hypersensitivity reactions
- Not recommended for prolonged use without physician supervision

Drug Interactions:

May interact with other β_2 -agonists, MAO inhibitors, or tricyclic antidepressants

Storage:

Store below **25°C** in a cool, dry place

Protect from light and moisture

Keep out of reach of children
