

Cyproslab T Drop

Cyproheptadine (1.5mg) + Tricholine Citrate (55mg) Drops

This formulation is typically used for children and infants as an appetite stimulant and for supporting liver health. It is a liquid preparation that combines the benefits of Cyproheptadine and Tricholine Citrate in a dosage appropriate for pediatric use.

- **Infants (below 1 year):** 2–3 drops, 2–3 times a day.
- **Children (1–5 years):** 5–10 drops, 2–3 times a day.
- **Older children:** Dosage as per medical advice.
- **Administer the drops using the dropper provided. Mix with water or milk if necessary.**

Composition

- **Cyproheptadine: 1.5 mg**
- **Tricholine Citrate: 55 mg**

Indications

- 1. Appetite Stimulation**
 - Useful for children with poor appetite or feeding difficulties.
 - Helps in weight gain by improving food intake.
- 2. Liver Support**
 - Enhances liver function in conditions like fatty liver or liver dysfunction.
 - Promotes bile secretion to aid digestion and detoxification.
- 3. Nutritional Deficiency Management**
 - Supports growth and overall health in children with malnutrition or delayed milestones.

Dosage and Administration

- The dosage depends on the child's age, weight, and medical condition. It is typically prescribed by a doctor.
- **General Guideline:**

How It Works

- 1. Cyproheptadine:**
 - Enhances appetite by inhibiting serotonin, which regulates satiety.
 - Also provides mild antihistamine effects for allergies, if present.
- 2. Tricholine Citrate:**
 - Acts on the liver to reduce fat deposits.
 - Stimulates bile secretion for improved digestion and liver detoxification.

Precautions

- Administer strictly under medical supervision.
- Avoid overdose as Cyproheptadine may cause drowsiness or irritability.
- Not suitable for children with known hypersensitivity to either component.

Side Effects

- Drowsiness or sedation
- Dry mouth
- Mild nausea or stomach upset

- **Allergic reactions (rare)**
-

Storage

- **Store in a cool, dry place, away from sunlight.**
- **Keep out of reach of children.**

If in doubt, always consult a pediatrician before administering.
