

# Cyproslab Plus Syrup

## Cyproheptadine 2mg + B-Complex Multivitamin Syrup

### **Appetite Stimulant & Nutritional Supplement for Overall Growth**

#### Composition (Per 5ml Syrup):

- **Cyproheptadine Hydrochloride** – 2 mg
- **Vitamin B1 (Thiamine Hydrochloride)** – As per formulation
- **Vitamin B2 (Riboflavin)** – As per formulation
- **Vitamin B3 (Niacinamide)** – As per formulation
- **Vitamin B5 (Calcium Pantothenate)** – As per formulation
- **Vitamin B6 (Pyridoxine Hydrochloride)** – As per formulation
- **Vitamin B12 (Cyanocobalamin)** – As per formulation
- **Other essential B-complex vitamins**

#### Product Overview:

This syrup is a **combination of Cyproheptadine and B-Complex vitamins**, formulated to **stimulate appetite, promote weight gain, and enhance overall growth and nutrition**. Cyproheptadine, an antihistamine with appetite-enhancing properties, works alongside **B-complex vitamins** to support **energy metabolism, nervous system function, and overall well-being**.

It is particularly beneficial for **children, adults, and elderly individuals** who experience **loss of appetite, weakness, or nutritional deficiencies**.

#### Key Benefits:

- Stimulates **appetite and promotes healthy weight gain**
- Supports **growth and development in children**
- Helps in **nutritional deficiencies and general weakness**
- Enhances **energy levels and metabolism**
- Improves **digestion and absorption of nutrients**

- Boosts **immunity and overall health**

#### How It Works:

1. **Cyproheptadine Hydrochloride**: An appetite stimulant that works by blocking serotonin, a neurotransmitter that suppresses hunger, thereby increasing appetite and food intake.
2. **B-Complex Vitamins**: Essential for energy production, nervous system function, and the proper metabolism of carbohydrates, proteins, and fats. These vitamins help improve digestion and nutrient absorption.

#### Indications:

- Loss of appetite and underweight conditions
- Malnutrition or nutritional deficiencies
- General weakness and fatigue
- Growth-related concerns in children
- Recovery from illness, surgery, or chronic conditions
- Supports increased energy needs in active individuals

#### Dosage & Administration:

- **Children (2-6 years)**: 2.5ml twice daily or as directed by a physician
- **Children (7-14 years)**: 5ml twice daily or as directed by a physician
- **Adults**: 5-10ml twice daily or as prescribed by a doctor
- Shake well before use

#### Precautions & Warnings:

- May cause **drowsiness**; avoid activities requiring alertness (e.g., driving) after consumption
- Not recommended for individuals with **glaucoma, asthma, or urinary retention issues**
- Avoid alcohol consumption while using this syrup
- Use with caution in **pregnant or breastfeeding women**; consult a doctor before use
- Do not exceed the recommended dosage

### Side Effects (Rare and Mild):

- Drowsiness or mild dizziness
- Dry mouth
- Increased appetite and weight gain
- Mild stomach upset (rare cases)

### Storage Instructions:

- Store in a cool, dry place away from direct sunlight
- Keep out of reach of children
- Do not refrigerate or freeze

---

### Why Choose This Product?

- **Dual-action formula** for appetite stimulation and nutritional support
- **Ideal for children, adults, and elderly individuals**
- **Improves energy levels and enhances metabolism**
- **Supports healthy weight gain and overall growth**

For best results, maintain a **balanced diet, engage in regular physical activity, and stay hydrated**. If symptoms persist, consult a healthcare professional.
