

DecplisT 100 Tablet

Diclofenac (100mg) Tablet

Diclofenac (100mg) is a non-steroidal anti-inflammatory drug (NSAID) used to treat pain, inflammation, and swelling associated with various medical conditions.

Composition

- Diclofenac Sodium: 100 mg

Indications

Diclofenac is prescribed for:

1. Pain Relief:
 - Acute musculoskeletal pain
 - Post-operative pain
 - Pain from dental procedures
2. Inflammatory Conditions:
 - Rheumatoid arthritis
 - Osteoarthritis
 - Ankylosing spondylitis
3. Other Uses:
 - Gout
 - Dysmenorrhea (painful periods)
 - Sports injuries

Dosage and Administration

- Adults: 100 mg once daily (extended-release formulation).
- Children: Not commonly recommended; consult a doctor.
- Take orally with water, preferably after food to reduce gastric irritation.

Note: Dosage may vary based on the condition and response to treatment.

How It Works

Diclofenac inhibits cyclooxygenase (COX-1 and COX-2) enzymes, reducing the production of prostaglandins, which are chemicals responsible for pain, inflammation, and swelling.

Precautions

- Use with caution in patients with:
 - Peptic ulcer disease or history of gastrointestinal bleeding.
 - Kidney or liver impairment.
 - Cardiovascular conditions (e.g., hypertension, heart failure).
- Not recommended for use during pregnancy (especially the third trimester) or breastfeeding without medical advice.
- Avoid alcohol consumption to reduce the risk of stomach irritation.

Possible Side Effects

Common Side Effects:

- Stomach pain or discomfort
- Nausea or vomiting
- Headache
- Dizziness

Serious Side Effects (Rare):

- Stomach ulcers or bleeding

- Allergic reactions (rash, swelling, or difficulty breathing)
- Increased blood pressure
- Liver or kidney dysfunction

Seek immediate medical attention if severe side effects occur.

Drug Interactions

- **Avoid combining with:**
 - **Other NSAIDs or aspirin (increases risk of bleeding).**
 - **Anticoagulants (e.g., warfarin) or antiplatelet drugs (e.g., clopidogrel).**
 - **Certain diuretics or blood pressure medications (reduces efficacy).**

Inform your doctor about all medications or supplements you are taking.

Storage

- **Store in a cool, dry place, away from direct sunlight and moisture.**
 - **Keep out of reach of children.**
-

Important Note: Diclofenac provides symptomatic relief but does not cure the underlying condition. It should be used under medical supervision and for the shortest duration necessary to manage symptoms.
