

Information For the User  
Diclofenac Diethylamine IP 4.64% w/v + Absolute Alcohol IP 10% v/v

# DecplisT 4X Topical Solution

**Composition:**

Each ml contains:

**Diclofenac Diethylamine I.P.** – 4.64% w/v  
(Equivalent to Diclofenac Sodium 4% w/v)

**Absolute Alcohol I.P.** – 10% v/v

In a non-greasy, quick-drying topical solution base – q.s.

**Description:**

DecplisT 4X Topical Solution is a high-strength anti-inflammatory formulation designed for rapid relief from musculoskeletal pain. It contains Diclofenac Diethylamine, a non-steroidal anti-inflammatory drug (NSAID), which penetrates deep into the affected tissue to relieve inflammation and pain at the site of application. The inclusion of Absolute Alcohol enhances skin penetration and provides a cooling, quick-drying effect, making it ideal for patients seeking fast and effective relief from localized pain.

**Indications:**

Topical treatment of localized musculoskeletal conditions such as:

Sprains and strains

Sports injuries

Tendonitis and bursitis

Joint pain associated with osteoarthritis

Backache, shoulder pain, and cervical spondylosis

**Mechanism of Action:**

Diclofenac inhibits the cyclooxygenase (COX) enzymes, especially COX-2, thereby reducing the synthesis of prostaglandins responsible for pain, inflammation, and swelling. The alcohol-based solution enhances the transdermal delivery of Diclofenac into the inflamed tissues, ensuring localized action without systemic side effects.

**Dosage and Administration:**

Apply a thin film to the affected area 3–4 times daily or as prescribed by a physician

Massage gently until fully absorbed

Wash hands thoroughly after application

Do not apply on open wounds, broken skin, or near eyes and mucous membranes

Do not cover with occlusive dressing unless advised

**Side Effects:**

Mild irritation, redness, or rash at the site of application

Rarely: Allergic dermatitis, photosensitivity, or contact eczema

Avoid prolonged exposure to sunlight on treated area

**Precautions:**

For external use only

Not to be used in children below 12 years without medical advice

Avoid use during pregnancy, especially in the third trimester

Use with caution in patients with known NSAID sensitivity or asthma  
Discontinue if irritation persists or worsens

**Storage:**

Store below 25°C in a dry place  
Keep the container tightly closed  
Protect from direct sunlight and flame (contains alcohol)  
Keep out of reach of children
