

Devaflex XR 50 Tablet

Brand Name: Devaflex XR 50 Tablet

Dosage Form: Tablet

Composition:

Each extended-release tablet contains:

- Desvenlafaxine 50 mg
-

Description:

Devaflex XR 50 Tablet contains Desvenlafaxine, a serotonin-norepinephrine reuptake inhibitor (SNRI) used for the management of major depressive disorder and related anxiety disorders. It helps restore the balance of serotonin and norepinephrine in the brain, improving mood, emotional stability, and overall mental well-being. The extended-release formulation allows once-daily dosing for sustained therapeutic effect.

Indications:

Indicated for:

- Major Depressive Disorder (MDD)
- Anxiety disorders associated with depression

It helps in alleviating depressive symptoms, enhancing energy, and improving daily functioning.

Dosage & Administration:

Take as directed by the physician.

Swallow the tablet whole with water, with or without food.

Dosage should be individualized based on patient response and tolerance.

Do not crush, chew, or break the extended-release tablet.

Pharmacological Action:

Desvenlafaxine inhibits the reuptake of serotonin and norepinephrine in the central nervous system, increasing their levels and improving neurotransmission related to mood regulation.

Side Effects:

Mild nausea, headache, dizziness, or insomnia may occur in some patients.

Precautions & Warnings:

- Use with caution in patients with hypertension, renal, or hepatic impairment.
- Monitor for suicidal thoughts, especially at therapy initiation.
- Avoid abrupt discontinuation; taper dose under medical supervision.
- Avoid alcohol as it may worsen drowsiness.
- Not recommended during pregnancy or lactation unless advised by a physician.

Drug Interactions:

May interact with MAO inhibitors, other antidepressants, anticoagulants, or CNS-active drugs.

Storage:

Store below 25°C in a cool, dry place.

Protect from light and moisture.

Keep out of reach of children.
