

Lanzotyle DX 60 Capsules

Brand Name: Lanzotyle DX 60 Capsule

Dosage Form: Capsule

Composition:

- **Dexlansoprazole I.P. 60 mg**

Therapeutic Segment:

Gastroenterology / Acid-Related Disorders Segment

Therapeutic Indication:

Lanzotyle DX 60 Capsule is indicated for the **treatment of acid-related gastrointestinal disorders**. It helps in:

- **Gastroesophageal reflux disease (GERD)**
- **Erosive esophagitis**
- **Heartburn and acid regurgitation**
- **Maintenance of healed erosive esophagitis**

It helps in **reducing stomach acid production, relieving symptoms, and promoting healing of the esophagus**.

Mechanism of Action:

- **Dexlansoprazole is a proton pump inhibitor (PPI).**
- It **suppresses gastric acid secretion** by inhibiting the H^+/K^+ -ATPase enzyme system at the secretory surface of gastric parietal cells.
- This leads to **reduced gastric acidity and symptom relief**.

Dosage & Administration:

- Take **once daily**, preferably **before meals**.
- Swallow the capsule **whole with water**; do not crush or chew.
- Follow the **physician's dosing instructions** for optimal results.

Contraindications:

- Hypersensitivity to **Dexlansoprazole or other PPIs**
- Avoid in **patients with severe liver impairment** unless prescribed

Warnings & Precautions:

- Long-term use may require monitoring for **vitamin B12 deficiency**
- May interact with drugs such as **warfarin, ketoconazole, or clopidogrel**

- Report any **persistent abdominal pain or gastrointestinal bleeding**

Possible Side Effects:

- Headache, nausea, diarrhea
- Abdominal pain, flatulence
- Rare: rash, dizziness, liver enzyme elevation

Storage:

Store in a **cool, dry place below 25°C**, protected from light and moisture.

Segment:

Gastroenterology / Acid-Related Disorders Segment – It helps in **reducing stomach acid, relieving GERD symptoms, and promoting healing of esophageal mucosa.**
