

Cufsniff DP Syrup

Brand Name: Cufsniff DP Syrup

Dosage Form: Syrup

Therapeutic Category: Antitussive and Antihistamine

Composition:

Each 5 ml contains:

- **Dextromethorphan Hydrobromide IP** – 5 mg
- **Chlorpheniramine Maleate IP** – 2 mg
- Excipients – q.s.
- Flavoured syrupy base – q.s.
- Colour: Approved Colour used

Pharmacology & Mechanism of Action:

Dextromethorphan is a centrally acting antitussive that suppresses the cough reflex by acting on the medullary cough center without causing respiratory depression or dependency.

Chlorpheniramine Maleate is a first-generation antihistamine (H1 receptor antagonist) that inhibits histamine action, reducing allergic symptoms like sneezing, rhinorrhea, and nasal congestion.

The combination provides relief from dry, irritating, non-productive cough and associated allergic manifestations.

Indications:

- Dry and non-productive cough
- Allergic cough associated with rhinitis or cold
- Post-nasal drip with throat irritation
- Night-time cough relief

Dosage & Administration:

- **Adults:** 5 ml every 4 to 6 hours as directed by the physician
- **Children (6–12 years):** 2.5 ml every 4 to 6 hours
- Maximum 4 doses per day
- Shake well before use

Contraindications:

- Hypersensitivity to Dextromethorphan, Chlorpheniramine, or any excipient
- Concurrent use with monoamine oxidase inhibitors (MAOIs) or within 14 days of stopping them
- Severe cardiovascular disorders or severe hypertension

Warnings & Precautions:

- May cause drowsiness; caution while driving or operating machinery
- Use with caution in patients with asthma, COPD, or chronic respiratory conditions
- Avoid alcohol or other CNS depressants

- Not recommended in children under 6 years without medical supervision
- Use during pregnancy and lactation only if clearly needed

Drug Interactions:

- MAO inhibitors – risk of serotonin syndrome with Dextromethorphan
- CNS depressants and alcohol – enhanced sedation
- Anticholinergic drugs – additive anticholinergic effects with Chlorpheniramine

Adverse Effects:

- Common: Drowsiness, dizziness, dry mouth, nausea
- Rare: Nervousness, restlessness, urinary retention, blurred vision

Storage:

- Store below 25°C in a cool, dry place
- Protect from sunlight and moisture
- Keep out of reach of children
