

**“All-Day Acid Control,
One Capsule.”**

CafeliTM
L I F E C A R E

Lanzotyle **DX** 30

Dexlansoprazole 30mg Capsule

- ✓ Used for effective treatment of gastro-esophageal reflux disease (GERD) by significantly reducing gastric acid secretion.
- ✓ Helps in healing erosive esophagitis and preventing its recurrence with sustained acid control.
- ✓ Provides long-lasting relief from chronic heartburn and acid regurgitation symptoms.
- ✓ Improves esophageal mucosal healing by maintaining prolonged intragastric pH levels.
- ✓ Useful in managing acid-related discomfort such as chest burning, sour taste, and epigastric pain.
- ✓ Enhances overall quality of life in patients suffering from chronic acid-peptic disorders.

Indication In :

GERD

Chronic heartburn

Erosive esophagitis

Acid reflux symptoms
