# Information For the User Ceftazidime (1000mg) + Tazobactum (125mg)

# Dimezeft TZ 1.126

Dimezeft TZ 1.126 Injection

Dosage Form: Injection

Category: Antibacterial (Beta-lactam + Beta-lactamase inhibitor)

### Composition:

Each vial contains:

Ceftazidime 1000mgTazobactum 125mg

#### **Description:**

Dimezeft TZ 1.126 is a combination of Ceftazidime, a third-generation cephalosporin with broad-spectrum bactericidal activity, and Tazobactum, a  $\beta$ -lactamase inhibitor that enhances Ceftazidime's efficacy against  $\beta$ -lactamase-producing organisms. This synergistic formulation targets resistant Gramnegative and Gram-positive pathogens, making it suitable for severe and hospital-acquired infections.

#### Indications:

- Lower respiratory tract infections (including nosocomial pneumonia)
- Urinary tract infections
- Intra-abdominal infections
- Skin and soft tissue infections
- Bone and joint infections
- Septicaemia
- Infections in immunocompromised patients

## **Dosage and Administration:**

- Administer by intravenous injection or infusion
- Dosage as directed by a physician based on severity and patient condition
- Reconstitute as per label instructions before use

#### **Contraindications:**

• Known hypersensitivity to cephalosporins or β-lactam antibiotics

#### **Warnings and Precautions:**

- Use with caution in patients with renal impairment
- Monitor liver and renal functions during prolonged therapy
- Discontinue if signs of allergic reaction appear

## **Adverse Effects:**

Local injection site reactions

- Diarrhoea, nausea, vomiting
- Skin rash, urticaria
- Rarely: neutropenia, thrombocytopenia, or anaphylaxis

# Storage:

- Store below 25°C in a dry place
- Protect from light and moisture
- Keep out of reach of children

### **Presentation:**

• Vial of 1.126g with sterile water for injection (if supplied)

#### **Conclusion:**

Dimezeft TZ 1.126 Injection is a reliable choice for combating resistant bacterial infections, offering enhanced efficacy through dual action—ideal for use in critical care and hospital settings.
