

Doxaloom Tablet

Product Description: Doxylamine (10 mg) + Vitamin B6 (Pyridoxine) (10 mg) + Folic Acid (2.5 mg) Tablet

- Prevents neural tube defects in the fetus.

Composition:

- Doxylamine succinate: 10 mg
- Vitamin B6 (Pyridoxine): 10 mg
- Folic Acid: 2.5 mg

Therapeutic Indications:

This combination is primarily used for:

1. Nausea and vomiting during pregnancy (morning sickness).
2. Prevention of neural tube defects and promoting healthy fetal development.
3. Supplementation in pregnancy to ensure adequate levels of Vitamin B6 and Folic Acid.

Pharmacological Actions:

1. Doxylamine succinate:
 - An antihistamine that reduces nausea and vomiting by blocking histamine (H1) receptors.
 - Also has sedative properties.
2. Vitamin B6 (Pyridoxine):
 - Plays a crucial role in amino acid metabolism, neurotransmitter synthesis, and hemoglobin production.
 - Reduces nausea and vomiting during pregnancy when taken in therapeutic doses.
3. Folic Acid:
 - Essential for DNA synthesis, cell division, and red blood cell formation.

Dosage and Administration:

- Usual Adult Dose: 1 tablet at bedtime. If symptoms persist, the dosage may be increased to 2 tablets (1 in the evening, 1 at bedtime) under medical supervision.
- Route of Administration: Oral.

Precautions:

- Use under medical supervision, especially during pregnancy.
- Avoid activities requiring alertness, such as driving or operating heavy machinery, as Doxylamine may cause drowsiness.
- Patients with severe liver impairment or concurrent use of alcohol should exercise caution.

Side Effects:

- Drowsiness
- Dry mouth
- Dizziness
- Gastrointestinal disturbances (e.g., constipation or upset stomach)

Contraindications:

- Hypersensitivity to any of the active ingredients.

- **Concurrent use with monoamine oxidase inhibitors (MAOIs).**
-

Storage Conditions:

- **Store in a cool, dry place, below 25°C.**
 - **Protect from light and moisture.**
-

Presentation:

- **Blister pack containing [X number of tablets].**
-

Note: Always consult a healthcare provider before starting or continuing this medication during pregnancy.
