

Droxifix 500 LB Tablet

Droxifix 500 LB Tablet

Composition:

Each tablet contains:

- Cefadroxil – 500 mg
- Lactobacillus spores – q.s.

Description:

Droxifix 500 LB Tablet combines Cefadroxil, a broad-spectrum cephalosporin antibiotic, with Lactobacillus spores to help prevent gastrointestinal disturbances often associated with antibiotic use. Cefadroxil is effective in treating various bacterial infections, while Lactobacillus helps maintain healthy gut flora.

Pharmacological Action:

- **Cefadroxil:** Inhibits bacterial cell wall synthesis, leading to the death of susceptible bacteria.
- **Lactobacillus spores:** Promote the growth of beneficial bacteria in the gut, reducing the risk of diarrhea and other gastrointestinal side effects typically caused by antibiotics.

Indications:

- Respiratory tract infections (e.g., pharyngitis, bronchitis)
- Urinary tract infections
- Skin and soft tissue infections
- Ear, nose, and throat infections
- Prophylactic use during and after surgical procedures

Dosage & Administration:

- The recommended dose is one tablet once or twice daily or as directed by a physician.
- Should be taken with or without food, as prescribed.

Contraindications:

- Known hypersensitivity to cephalosporins, penicillins, or any component of the formulation.
- Patients with a history of severe gastrointestinal conditions, especially with antibiotic-associated diarrhea.

Warnings & Precautions:

- Caution is advised in patients with a history of allergic reactions to beta-lactam antibiotics.
- Use with caution in patients with renal impairment; dose adjustments may be necessary.
- Prolonged or frequent use of antibiotics may cause fungal or bacterial superinfections.

Adverse Effects:

- Nausea, vomiting, diarrhea
- Abdominal discomfort or bloating
- Skin rash, allergic reactions
- Dizziness, headache
- Potential for gastrointestinal disturbances due to antibiotic use

Drug Interactions:

- May interfere with oral contraceptives.
- Antacids or H2 blockers may reduce the absorption of Cefadroxil.
- Concomitant use with other nephrotoxic drugs should be avoided.

Storage Conditions:

- Store below 25°C in a cool, dry place.
- Keep in the original packaging to protect from moisture and light.
- Keep out of reach of children.

Conclusion:

Droxifix 500 LB Tablet provides effective treatment for a range of bacterial infections while minimizing gastrointestinal side effects through the inclusion of Lactobacillus spores. Regular use under medical supervision ensures optimal outcomes for patients.
