

Electroslice ORS Liquid

Composition:

Each 200 ml contains:

Sodium Chloride I.P. – 0.52 g

Potassium Chloride I.P. – 0.30 g

Sodium Citrate I.P. – 0.58 g

Dextrose Anhydrous I.P. – 2.70 g

Vitamin C (Ascorbic Acid) – 40 mg

Zinc Sulphate Monohydrate equivalent to Elemental Zinc – 10 mg

Water for Oral Rehydration – q.s. to 200 ml

Description:

Electroslice ORS Liquid is a scientifically balanced oral rehydration solution enriched with essential electrolytes, glucose, Vitamin C, and Zinc. It is designed to rapidly replenish fluids and minerals lost due to dehydration caused by diarrhea, vomiting, heatstroke, or physical exertion. The inclusion of Vitamin C supports immunity, while Zinc aids in intestinal healing and reduces the duration of diarrhea.

Indications:

Used for oral rehydration in:

Dehydration due to acute or chronic diarrhea

Vomiting and fluid loss

Heat exhaustion or sweating

Zinc and Vitamin C supplementation during infections and recovery

Supportive therapy in pediatric and geriatric care

Mechanism of Action:

Dextrose enhances sodium and water absorption through the sodium-glucose co-transport pathway in the intestinal lining. Electrolytes restore the body's ionic balance. Zinc provides mucosal protection and immune support, while Vitamin C acts as an antioxidant and promotes cellular repair.

Dosage and Administration:

Infants: As directed by a physician

Children: 50–100 ml after each loose stool

Adults: 200 ml after each diarrheal episode

Administer in small sips. Shake well before use. Do not exceed recommended quantity.

Side Effects:

Generally well tolerated. In rare cases, mild bloating or nausea may occur. Overconsumption can lead to hyponatremia or gastric discomfort.

Precautions:

Use with caution in patients with fluid retention, renal dysfunction, or electrolyte imbalance. Not to be used for parenteral administration. Once opened, keep refrigerated and consume within 24 hours.

Storage:

Store below 25°C in a cool, dry place. Protect from direct sunlight and frost. Keep out of reach of children.
