

Information For the User
Fenofibrate 145mg tablet

Fenoflick 145 Tablet

Brand Name: Fenoflick 145 Tablet

Dosage Form: Tablet

Composition:

Each film-coated tablet contains:

- Fenofibrate IP 145 mg
-

Description:

Fenoflick 145 Tablet contains Fenofibrate, a lipid-regulating agent used to manage dyslipidemia and hypertriglyceridemia. It helps reduce elevated triglycerides, total cholesterol, LDL levels and increases HDL cholesterol, supporting cardiovascular risk reduction.

Indications:

Indicated for:

- Hypertriglyceridemia
- Hyperlipidemia
- Mixed dyslipidemia

It helps in improving lipid profile when lifestyle modification alone is insufficient.

Dosage & Administration:

- Take as directed by the physician.
 - Administer orally with food to enhance absorption.
-

Pharmacological Action:

Fenofibrate works by activating PPAR- α receptors, resulting in:

- Increased breakdown and clearance of triglycerides
 - Reduced LDL and VLDL levels
 - Improved HDL cholesterol levels
-

Side Effects:

Generally well tolerated. Mild abdominal discomfort or headache may occur in some patients.

Precautions & Warnings:

- Use with caution in patients with renal or hepatic impairment.
 - Regular lipid profile monitoring is advised during therapy.
 - Avoid alcohol consumption during treatment.
 - Not recommended during pregnancy or lactation unless advised by physician.
-

Drug Interactions:

May interact with:

- Statins
 - Anticoagulants
 - Immunosuppressants
-

Storage:

Store below 25°C in a cool, dry place.

Protect from moisture and light.

Keep out of reach of children.

Manufactured in India for:

Cafoli Lifecare Pvt. Ltd.
