

Information For the User  
Fenofibrate (160mg) tablet

# Fenoflick 160 Tablet

**Brand Name:** Fenoflick 160 Tablet

**Dosage Form:** Tablet

**Composition:**

Each film-coated tablet contains:

- Fenofibrate IP 160 mg
- 

**Description:**

Fenoflick 160 Tablet contains Fenofibrate, a lipid-lowering medication used to control elevated triglycerides and cholesterol levels. It helps reduce LDL and VLDL cholesterol while improving HDL levels, supporting cardiovascular risk management in patients with dyslipidemia.

---

**Indications:**

Indicated for:

- Hypertriglyceridemia
- Hyperlipidemia
- Mixed dyslipidemia

It helps in improving lipid balance when diet, exercise, and lifestyle modifications alone are insufficient.

---

**Dosage & Administration:**

- Take as prescribed by the physician.
  - Best taken with food to enhance absorption.
- 

**Pharmacological Action:**

Fenofibrate is a PPAR- $\alpha$  agonist that:

- Enhances lipolysis and clearance of triglyceride-rich particles
  - Reduces LDL and VLDL levels
  - Helps increase HDL cholesterol levels
- 

**Side Effects:**

Generally well tolerated. Mild abdominal discomfort or headache may occur in some patients.

---

**Precautions & Warnings:**

- Use with caution in patients with renal or hepatic impairment.
- Routine monitoring of lipid profile and liver function is advisable.
- Avoid alcohol during treatment.
- Not recommended during pregnancy or lactation unless advised by a physician.

---

**Drug Interactions:**

May interact with:

- Statins
- Anticoagulants
- Immunosuppressants

---

**Storage:**

Store below 25°C in a cool, dry place.

Protect from moisture and direct light.

Keep out of reach of children.

Manufactured in India for:

**Cafoli Lifecare Pvt. Ltd.**
