Astaxanthin (16mg) + Reduced
Coenzyme Q10 (200mg)

Reduced CoQ10 :

- Reduced CoQ10 has been shown to help support cardiovascular health by improving heart function, reducing oxidative stress, and lowering blood pressure.
- CoQ10 levels decrease with age, and supplementing with reduced CoQ10 may help reduce the signs of aging and improve skin health.
- It is involved in the production of ATP, the body's primary energy source, and supplementing with it may improve energy levels and reduce fatigue.
- Reduced CoQ10 has been shown to improve cognitive function, including memory and concentration, in some people.

Astaxanthin :

- It is a powerful antioxidant that can help protect cells from oxidative damage caused by free radicals.
- Some studies suggest that astaxanthin may help improve eye health by reducing the risk of age-related macular degeneration and cataracts.
- Astaxanthin may help protect the skin from harmful UV rays and improve skin health and appearance, including reducing the appearance of fine lines and wrinkles.
