

RELIABLE SUPPORT FOR OVULATION & CONCEPTION....

FertiedgeTM HMG 75 Injection

Menotropin for Injection IP 75 IU

- Stimulates both follicular development and ovulation in women with infertility due to anovulation or ART protocols.
- Contains balanced Follicle Stimulating Hormone (FSH) and Luteinizing Hormone (LH) for optimal ovarian response.
- Effective in ovarian stimulation for IVF, ICSI and other ART cycles.
- Improves chances of pregnancy when combined with hCG trigger.
- Helps treat male hypogonadotropic hypogonadism to induce spermatogenesis.

Indications

- Follicular stimulation in ART
- Male infertility (low sperm)
- Ovulation induction
- Hormonal support in IVF
