

# Fexofozy Suspension

**Brand Name:** Fexofozy Suspension

**Dosage Form:** Suspension

**Composition:**

Each 5 ml contains:

- Fexofenadine Hydrochloride IP 30 mg

**Description:**

Fexofozy Suspension contains Fexofenadine, a second-generation antihistamine indicated for the management of allergic disorders. It helps in providing effective relief from allergy symptoms by selectively blocking peripheral histamine H1 receptors without causing significant sedation.

**Indications:**

Indicated for the treatment of:

- Allergic rhinitis (seasonal and perennial)
- Chronic idiopathic urticaria
- Other allergic conditions associated with histamine release

It helps in relieving sneezing, rhinorrhea, nasal congestion, itching, watery eyes, and allergic skin manifestations.

**Dosage & Administration:**

Dosage should be as prescribed by the physician.

Shake well before use.

Use a calibrated measuring cup or spoon to ensure accurate dosing.

**Pharmacological Action:**

Fexofenadine is a selective peripheral H1-receptor antagonist. It inhibits the effects of histamine released during allergic reactions, thereby reducing allergic symptoms without producing significant central nervous system effects.

**Side Effects:**

Generally well tolerated.

Occasionally, headache, dizziness, or mild gastrointestinal discomfort may be observed.

**Precautions & Warnings:**

- Use with caution in patients with renal impairment
- Avoid concomitant intake with fruit juices, as absorption may be reduced
- Use under medical supervision in pediatric patients

**Drug Interactions:**

Concomitant administration with antacids containing aluminum or magnesium may reduce absorption; an appropriate dosing interval should be maintained.

**Storage:**

Store below 25°C in a cool, dry place.  
Protect from light and moisture.  
Keep out of reach of children.

Manufactured in India for:

Cafoli Lifecare Pvt. Ltd.
