

Fincurl 2.5 Tablet

Finasteride (2.5 mg) Tablet

Generic Name:

Finasteride

Strength:

2.5 mg

Formulation:

Oral tablet

Uses:

- **Male Pattern Hair Loss (Androgenetic Alopecia):**
 - Helps reduce hair loss and promote hair regrowth in men.
 - Often prescribed when the standard 1 mg dose is not sufficiently effective.
 - **Off-Label Use:**
 - Sometimes used for managing symptoms of **Benign Prostatic Hyperplasia (BPH)**.
-

Mechanism of Action:

Finasteride is a **5-alpha-reductase inhibitor**. It works by blocking the conversion of testosterone into **dihydrotestosterone (DHT)**. Elevated DHT levels contribute to hair loss and prostate enlargement. Lowering DHT helps reduce hair loss and may support hair regrowth.

Dosage:

- **Typical Dose:** 2.5 mg orally once daily, with or without food.
 - Consistent use for at least **3-6 months** is typically required to see noticeable results.
 - Follow your healthcare provider's instructions for optimal effectiveness.
-

Precautions:

- **Not for use by women** or children.
 - Women who are pregnant or may become pregnant should **not handle broken or crushed tablets** due to the risk of fetal abnormalities.
 - Inform your doctor if you have:
 - **Liver disease**
 - **Prostate cancer**
 - **Urinary tract infections**
 - Regular monitoring of **PSA levels** (Prostate-Specific Antigen) may be required for men to rule out prostate cancer.
-

Side Effects:

- **Common:**
 - Decreased libido
 - Erectile dysfunction
 - Reduced semen volume
 - **Less Common:**
 - Breast tenderness or enlargement
 - Rash or itching
 - Depression or mood changes
 - **Serious (Seek Immediate Medical Attention):**
 - Severe allergic reactions (swelling of face, lips, or throat)
 - Persistent breast pain or lumps
-

Drug Interactions:

- Inform your healthcare provider of all medications you are taking, especially:
 - **Alpha-blockers** (used for blood pressure or BPH)
 - **Herbal supplements** (e.g., saw palmetto)
-

Storage:

- Store at **20°C to 25°C** (68°F to 77°F).
 - Keep tablets in their original container, protected from **light** and **moisture**.
 - Keep out of reach of children.
-

Note:

Finasteride requires **long-term, consistent use** for continued benefits. If treatment is stopped, hair loss may resume within **6-12 months**. Always follow your healthcare provider's guidance and report any side effects promptly.
