

Information For the User  
Fluticasone Furoate 27.5 mcg + Oxymetazoline 50 mcg Nasal Spray

# Flutialfa OXY Nasal Spray

**Brand Name:** Flutialfa OXY Nasal Spray

**Dosage Form:** Nasal Spray

**Composition:**

Each actuation (spray) contains:

- **Fluticasone Furoate IP 27.5 mcg**
- **Oxymetazoline Hydrochloride IP 50 mcg**

**Description:**

Flutialfa OXY Nasal Spray is a combination of a corticosteroid and a nasal decongestant. It helps in relieving nasal congestion, sneezing, and runny nose associated with allergic rhinitis while reducing inflammation in the nasal passages.

**Indications:**

Indicated for:

- Allergic rhinitis (seasonal or perennial)
- Nasal congestion due to common cold
- Sinusitis-related nasal blockage

It helps in reducing nasal inflammation, relieving congestion, and improving nasal airflow.

**Dosage & Administration:**

Dosage should be individualized as directed by the physician.

Shake well before use. Prime the spray before first use.

Administer 1–2 sprays in each nostril, usually once or twice daily as prescribed.

**Pharmacological Action:**

- **Fluticasone Furoate:** A corticosteroid that reduces inflammation in nasal mucosa by inhibiting inflammatory mediators.
- **Oxymetazoline:** A topical decongestant causing vasoconstriction of nasal blood vessels, reducing nasal swelling and congestion.

**Side Effects:**

Mild nasal irritation, burning, or dryness may occur in some patients.

**Precautions & Warnings:**

- Avoid prolonged use of oxymetazoline (>3–5 days) to prevent rebound congestion.
- Use with caution in patients with hypertension or cardiovascular disorders.
- Not recommended in children under 6 years unless prescribed.

**Drug Interactions:**

Caution with systemic corticosteroids or other nasal decongestants. Consult physician for co-administration.

**Storage:**

Store below **25°C** in a cool, dry place.

Protect from light and moisture.

Keep out of reach of children.

Manufactured in India for:

**Cafoli Lifecare Pvt. Ltd.**
