

FOR CONTROL

Balanced Blood
Sugar, Healthier Life

Glibclay M 5/ 500

Glibenclamide (5mg) + Metformin (500mg) Tablets

INDICATIONS

Type 2 Diabetes Mellitus

Hyperglycemia

Poor Glycemic Control

Insulin Resistance

- Supports long-term management of Type 2 Diabetes Mellitus.
- Supports better metabolic health when combined with diet and exercise.
- Helps achieve better glycemic control by reducing blood glucose levels, improving insulin utilization, and supporting long-term diabetes management.
- Combines the complementary actions of Glibenclamide and Metformin to effectively control blood sugar levels and reduce the risk of diabetes-related complications.

Dual Action for Better Diabetes Control
