

**THE COMPREHENSIVE LIVER
SPILLED THERAPY**

Hepalogy 140

Silymarin 140mg + L-Ornithine L- Aspartate 150mg
+ Pyridxine HCl IP. 3mg + Folic Acid IP. 1.5mg **Tablets**

- Supports liver health and function by promoting detoxification processes.
- Enhances the body's ability to reduce liver damage caused by toxins, infections, or oxidative stress.
- Aids in managing conditions like cirrhosis, hepatitis, and fatty liver.
- Boosts overall metabolic functions and helps regulate ammonia levels in the body.
- Improves liver regeneration, offering protection against hepatic stressors and facilitating recovery.

Indications

Liver diseases (such as cirrhosis or hepatitis).

Detoxification and clearance of toxins.

Ammonia accumulation disorders.

General liver support and recovery after injury or illness.
