

Information For the User
Lacosamide (100mg) Tablet

Lacobent 100 Tablet

Brand Name: Lacobent 100 Tablet

Dosage Form: Tablet

Composition:

Each film-coated tablet contains:

- Lacosamide 100 mg
-

Description:

Lacobent 100 Tablet contains Lacosamide, an antiepileptic medication used for the management of partial-onset seizures in adults and adolescents. It helps stabilize hyperexcitable neuronal membranes and inhibits repetitive neuronal firing, reducing seizure frequency.

Indications:

Indicated for:

- Partial-onset seizures in adults and adolescents
- Adjunctive therapy in epilepsy management

It helps in controlling seizure episodes and improving patient quality of life.

Dosage & Administration:

Take as directed by the physician.

Swallow the tablet whole with water, with or without food.

Dosage should be individualized based on patient response and tolerance.

Pharmacological Action:

Lacosamide selectively enhances slow inactivation of voltage-gated sodium channels in the neuronal membrane, stabilizing hyperexcitable neurons and preventing repetitive firing.

Side Effects:

Mild dizziness, headache, or fatigue may occur in some patients.

Precautions & Warnings:

- Use with caution in patients with cardiac conduction abnormalities.
 - Monitor for suicidal thoughts or mood changes.
 - Avoid alcohol as it may increase drowsiness.
 - Not recommended during pregnancy or lactation unless advised by a physician.
-

Drug Interactions:

May interact with other antiepileptics, CNS depressants, or drugs affecting cardiac conduction.

Storage:

Store below 25°C in a cool, dry place.

Protect from light and moisture.

Keep out of reach of children.

Manufactured in India for:

Cafoli Lifecare Pvt. Ltd.
