

Information For the User

Lisinopril 10 mg Tablet

Lisitake 10 Tablet

Brand Name: Lisitake 10 Tablet

Composition:

Each uncoated tablet contains:

Lisinopril Dihydrate IP equivalent to Lisinopril 10 mg

Therapeutic Indication:

Indicated for the treatment of mild to moderate hypertension

Used in the management of congestive heart failure as adjunctive therapy

Reduces mortality in patients with left ventricular dysfunction post-myocardial infarction

Also used in diabetic nephropathy to reduce proteinuria and slow progression of renal disease

Mechanism of Action:

Lisinopril is an angiotensin-converting enzyme (ACE) inhibitor

It blocks the conversion of angiotensin I to angiotensin II, a potent vasoconstrictor

This leads to vasodilation, reduced peripheral resistance, and decreased aldosterone levels

Lowers blood pressure and improves hemodynamic stability

Dosage & Administration:

Usual starting dose: 10 mg once daily

Dosage may be adjusted based on therapeutic response and patient's clinical condition

Can be taken with or without food

To be used under the supervision of a registered medical practitioner

Contraindications:

Hypersensitivity to Lisinopril or other ACE inhibitors

History of angioedema associated with previous ACE inhibitor therapy

Pregnancy and lactation

Severe renal artery stenosis

Concomitant use with aliskiren in patients with diabetes or renal impairment

Warnings & Precautions:

Monitor blood pressure, renal function, and serum potassium levels

Use with caution in patients with heart failure, renal impairment, or volume depletion

May cause hyperkalemia, persistent dry cough, or angioedema

Avoid potassium supplements or potassium-sparing diuretics unless prescribed

Side Effects:

Common: dizziness, headache, fatigue, hypotension, dry cough

Less common: rash, nausea, taste disturbances

Serious: angioedema, renal dysfunction, hyperkalemia, hypotension requiring intervention

Storage:

Store in a cool, dry, and dark place below 25°C

Protect from moisture and direct sunlight
Keep out of reach of children

Packaging:

Lisitake 10 Tablet is available in blister or alu-alu strip packs

Schedule:

Schedule H Prescription Drug – To be sold by retail on the prescription of a registered medical practitioner only
