

Information For the User  
Losartan 50mg + Chlorthalidone 6.25mg Tablet

# Lorsan CH Tablet

**Brand Name:** Lorsan CH Tablet

**Composition:**

Each uncoated tablet contains:

Losartan Potassium IP 50 mg

Chlorthalidone IP 6.25 mg

**Therapeutic Indication:**

Used in the management of hypertension, including patients not adequately controlled with monotherapy

Helps reduce blood pressure and decrease the risk of stroke, myocardial infarction, and cardiovascular events

Combination therapy is indicated when a single antihypertensive is insufficient

**Mechanism of Action:**

Losartan is an angiotensin II receptor blocker (ARB) that selectively blocks AT1 receptors

It causes vasodilation and decreases aldosterone secretion, reducing blood pressure

Chlorthalidone is a thiazide-like diuretic that inhibits sodium and chloride reabsorption in distal renal tubules

The combination provides additive antihypertensive effect and better control of blood pressure

**Dosage & Administration:**

Usual adult dose: one tablet once daily or as directed by the physician

Can be taken with or without food

Dose adjustment may be required in renal or hepatic impairment

**Contraindications:**

Hypersensitivity to Losartan, Chlorthalidone, or other sulfonamides

Pregnancy and lactation

Severe renal impairment or anuria

Concomitant use with aliskiren in patients with diabetes or renal dysfunction

**Warnings & Precautions:**

Monitor blood pressure, renal function, and electrolytes regularly

Caution in patients with volume depletion, heart failure, or renal artery stenosis

May cause hypotension, hyperkalemia, or electrolyte imbalance

Avoid excessive potassium intake or potassium supplements unless prescribed

**Side Effects:**

Common: dizziness, headache, fatigue, hypotension

Less common: hyperkalemia, nausea, cough, photosensitivity

Rare: angioedema, severe electrolyte disturbances, renal dysfunction

**Storage:**

Store in a cool, dry, and dark place below 25°C

Protect from moisture and sunlight  
Keep out of reach of children

**Packaging:**

Lorsan CH Tablet is available in blister or alu-alu strip packs

**Schedule:**

Schedule H Prescription Drug – To be sold by retail on the prescription of a registered medical practitioner only
