

Information For the User
Losartan 50mg + Amlodipine 5mg Tablet

Lorsan AM Tablet

Lorsan AM Tablet

Dosage Form: Tablet

Composition:

Each film-coated tablet contains:

Losartan Potassium IP equivalent to Losartan 50 mg

Amlodipine Besylate IP equivalent to Amlodipine 5 mg

Description:

Lorsan AM Tablet is a fixed-dose combination of Losartan Potassium, an angiotensin II receptor blocker (ARB), and Amlodipine, a calcium channel blocker (CCB). It is indicated for the management of hypertension. The combination provides effective blood pressure control through complementary mechanisms, reducing cardiovascular risk and improving overall vascular health.

Indications:

Essential hypertension

Patients inadequately controlled on monotherapy

Reduction of cardiovascular risk in hypertensive patients

Dosage & Administration:

Dosage should be as directed by the physician.

Swallow the tablet whole with water.

May be taken with or without food.

Regular monitoring of blood pressure is recommended.

Pharmacological Action:

Losartan selectively blocks the binding of angiotensin II to AT1 receptors, leading to vasodilation, reduced aldosterone secretion, and decreased blood pressure.

Amlodipine inhibits calcium ion influx across vascular smooth muscle and cardiac muscle cells, resulting in vasodilation and reduced peripheral vascular resistance.

The combination provides additive antihypertensive effects through renin-angiotensin system inhibition and calcium channel blockade.

Side Effects:

Dizziness

Headache

Peripheral edema

Fatigue

Hypotension

Precautions & Warnings:

Use with caution in patients with hepatic or renal impairment.

Monitor blood pressure and renal function periodically.

Not recommended during pregnancy.
Use under medical supervision.

Drug Interactions:

Caution with potassium supplements or potassium-sparing diuretics.

Monitor when used with other antihypertensive agents.

Avoid concomitant use with other drugs affecting the renin-angiotensin system without medical advice.

Storage:

Store below 25°C in a cool, dry place.

Protect from light and moisture.

Keep out of reach of children.

Manufactured in India for:

Cafoli Lifecare Pvt. Ltd.
