

Information For the User
Carboxymethylcellulose (1% w/v) + Oxychloro Complex (0.0075% w/v)

Lubicom Plus Eye Drop

Lubicom Plus Eye Drops (Carboxymethylcellulose 1% w/v + Oxychloro Complex 0.0075% w/v)

Introduction

Lubicom Plus Eye Drops provide **long-lasting relief** for **dry eyes, irritation, and discomfort** caused by environmental factors, prolonged screen time, and certain medical conditions. The combination of **Carboxymethylcellulose (CMC) 1% w/v** and **Oxychloro Complex 0.0075% w/v** ensures **deep hydration, tear film stabilization, and antimicrobial protection**, making it an ideal solution for **dry eye syndrome and ocular surface protection**.

Composition & Mechanism of Action

1. **Carboxymethylcellulose (CMC) 1% w/v**
 - A **lubricant (artificial tear)** that retains moisture on the eye surface.
 - Forms a **protective film** over the cornea, reducing **dryness, burning, and irritation**.
 - Enhances **tear film stability**, preventing **evaporation and discomfort**.
2. **Oxychloro Complex 0.0075% w/v**
 - A **mild antimicrobial agent** that protects against **bacterial contamination**.
 - Helps maintain **eye drop sterility** without causing irritation.
 - Supports **ocular surface healing** by minimizing oxidative stress.

Indications & Uses

Lubicom Plus Eye Drops are recommended for:

- **Dry Eye Syndrome** – Provides relief from **burning, itching, and discomfort**.
- **Computer Vision Syndrome** – Reduces eye strain caused by **prolonged screen exposure**.
- **Contact Lens Discomfort** – Hydrates and soothes eyes **after lens removal**.
- **Post-Surgical Eye Care** – Supports healing **after LASIK or cataract surgery**.
- **Environmental Eye Irritation** – Protects against **pollution, smoke, dust, and wind**.

Dosage & Administration

- Instill **1–2 drops in each eye as needed** or as directed by an ophthalmologist.
- **Instructions for Use:**
 - Wash hands before application.
 - Tilt the head back and gently pull down the lower eyelid.
 - Instill the drops and blink a few times to distribute evenly.
 - Do not touch the dropper tip to any surface to avoid contamination.

Precautions & Warnings

- **For external ophthalmic use only.**
- Avoid using if **eye infection or injury** is present without medical advice.

- If symptoms **persist or worsen, consult a doctor.**
- Remove **contact lenses** before application and wait **15 minutes** before reinserting.
- **Safe for prolonged use** but should be used under medical guidance for chronic dry eye conditions.

Side Effects

- **Mild burning or temporary blurriness** after application.
- **Occasional redness, irritation, or excessive tearing.**
- Rarely, **allergic reactions** such as swelling or severe discomfort.

Storage & Handling

- Store at **room temperature (below 30°C).**
- Keep the bottle tightly closed and away from direct sunlight.
- Discard **after 30 days** of opening to prevent contamination.

Conclusion

Lubicom Plus Eye Drops provide **effective and long-lasting hydration** for **dry and irritated eyes**, ensuring **soothing relief and ocular protection**. The combination of **Carboxymethylcellulose and Oxychloro Complex** makes it a **safe and reliable** choice for individuals experiencing **dryness, strain, and post-surgical recovery**.
