

*Dryness
can be damaging corneal epithelial cells*

Lubicom-Plus

Eye Drops

10ml

INDICATIONS

DRY EYES

Irritated Eyes

Tired Eyes

Computer Vision syndrome

Carboxymethyl Cellulose Sodium 1% + Oxychloro complex 0.0075% Eye drops

Carboxy Methyl Cellulose

- Muco-adhesive lubricant compound
- Tailors the increased intraocular absorption of L-Carnosine in the aqueous humor and optimizes its specific effect in producing the basic antioxidant activity in vivo and reducing toxic effects of lipid peroxides to the crystalline lens.

Oxychloro Complex

- New preservative with a wide range of activity and good safety profile.
- Low risk and should be considered especially in patients receiving multiple ophthalmic medications.
