

Mebihusk 200 Capsule

Mebihusk 200 Capsule

Composition:

Each capsule contains:

- **Mebeverine** – 200 mg

Description:

Mebihusk 200 Capsule is a **long-acting antispasmodic** that helps relieve **abdominal cramps, pain, and bloating** caused by **irritable bowel syndrome (IBS) and other gastrointestinal conditions**. It works by **relaxing the smooth muscles** of the intestine, providing relief from **spasms and discomfort** without affecting normal gut motility.

Indications:

- **Irritable Bowel Syndrome (IBS)**
- **Spastic colitis and intestinal cramps**
- **Functional bowel disorders**
- **Gastrointestinal motility disturbances**

Mechanism of Action:

Mebeverine is a **direct-acting smooth muscle relaxant** that works by:

- **Blocking calcium channels**, preventing muscle contractions.
- **Inhibiting excessive gut motility**, reducing abdominal spasms.
- **Providing prolonged symptom relief** without affecting normal digestion.

Dosage & Administration:

- **Recommended dose:** One capsule **twice daily**, preferably **before meals**.
- **Swallow whole with water**; do not chew or crush the capsule.
- **Duration of treatment** should be as advised by a physician.

Contraindications & Warnings:

- **Not for use in children below 18 years** unless prescribed.
- Avoid in patients with **severe liver or kidney impairment**.
- Use with caution in **pregnant and lactating women** (consult a doctor).
- May cause **mild dizziness or nausea**; avoid activities requiring alertness if affected.
- **Do not discontinue suddenly** without consulting a doctor.

Adverse Effects:

- **Nausea or dry mouth** (uncommon)
- **Mild headache or dizziness**
- **Allergic reactions (skin rash, swelling, difficulty breathing)** (rare)

Drug Interactions:

- No major drug interactions reported, but **caution with other gut motility agents**.

Storage Instructions:

- Store in a **cool, dry place** below 25°C.
- Keep away from **direct sunlight and moisture**.
- Keep out of reach of **children**.

Mebihusk 200 Capsule provides **effective relief from IBS symptoms** while maintaining normal gut function, making it a preferred choice for long-term **spasm and pain management** in digestive disorders.
