

Innovative Combination for the Treatment of Fever & Pain....

TinyBud™

Mefasil 100

Mefenamic Acid (100mg/5ml) Suspension

- Mefasil 100 Suspension is a non-steroidal anti-inflammatory drug (NSAID) formulated for effective pain and inflammation relief.
- It is primarily used to manage conditions such as fever, mild to moderate pain, and dysmenorrhea (painful menstrual periods).
- The oral suspension format is ideal for patients, especially children, who have difficulty swallowing traditional tablets.
- It's crucial to use this medication exactly as directed by your doctor to ensure safety and effectiveness.
- This formulation provides a convenient, ready-to-use option for quick symptomatic relief.
