Meropenem 250/500/1000 mg Injections

## Meropenem

- Ultra broad spectrum antibiotic specifically for meningitis and Pneumonia
- High efficiency rates of 71% against E. faecalis in patients with complicated infra-abdominal infections.
- Clinical responses in adults with meningitis are 98% compared with 92% of patients treated with cephalosporins. (The Medical Letter. 1996;38(984):88-90)
- 79-99% effective in uncomplicated and complicated UTI. (Drugs. 1995;50(1):73-101)
- Highly effective in all types of respiratory tract infections. (Drugs. 1995;50(1):73-101.)

## Sulbactam

- Sulbactam is a beta-lactamase inhibitor which blocks the action of enzymes produced by bacteria to inactivate Meropenem.
- Addition of Sulbactam reduces resistance and enhances the activity of Meropenem against bacteria

In.

Gynecological Infections

Intra- Abdominal Infections

Bacterial Meningitis

Skin & Skin Structure Infections
