

Information For the Use
Moxifloxacin (0.5% w/v) + Difluprednate (0.05% w/v)

Moxolunic D Ear Drop

Moxifloxacin (0.5% w/v) + Difluprednate (0.05% w/v) Ear Drops

Composition

- **Moxifloxacin: 0.5% w/v**
- **Difluprednate: 0.05% w/v**

Description

This formulation is a combination of:

1. **Moxifloxacin: A broad-spectrum fluoroquinolone antibiotic that inhibits bacterial DNA synthesis, effectively combating Gram-positive and Gram-negative bacterial infections.**
2. **Difluprednate: A potent corticosteroid that reduces inflammation, pain, and swelling associated with ear infections.**

Indications

- **Acute otitis externa (outer ear infection)**
- **Chronic otitis media with secondary bacterial infection**
- **Post-surgical inflammatory conditions of the ear with bacterial infection**

Dosage and Administration

- **Instill 2-3 drops into the affected ear(s) 2-3 times daily or as directed by a healthcare professional.**
- **Tilt the head or lie down with the affected ear facing upward for a few minutes to allow proper absorption.**

Contraindications

- **Hypersensitivity to Moxifloxacin, Difluprednate, or any other component of the formulation.**
- **Viral, fungal, or tubercular ear infections.**

Precautions

- **Avoid use if there is a suspected or known perforation of the tympanic membrane (eardrum).**
- **Use with caution in patients with a history of severe allergic reactions to fluoroquinolones or corticosteroids.**
- **Prolonged use may lead to overgrowth of non-susceptible organisms or fungal infections.**

Adverse Effects

- **Temporary burning, stinging, or discomfort in the ear.**
- **Allergic reactions such as rash, itching, or swelling.**
- **Rarely, secondary infections or steroid-related side effects like thinning of tissues.**

Storage

- **Store below 25°C in a cool, dry place, protected from light.**
- **Keep out of reach of children.**

Presentation

Available in a sterile dropper bottle of 5 mL or 10 mL.

Note: Use only under medical supervision. Discontinue use and consult a healthcare provider if irritation or adverse effects occur.
