

# Moxyplit 500 LB Capsule

## Amoxicillin (500mg) + Lactic Acid Bacillus (1.66 Million CFU) Capsule

This combination capsule is designed to treat bacterial infections while maintaining a healthy balance of gut flora. It combines the broad-spectrum antibiotic properties of Amoxicillin with the probiotic benefits of Lactic Acid Bacillus to prevent antibiotic-associated gastrointestinal issues.

### Composition:

- **Amoxicillin (500mg):** A penicillin-class antibiotic effective against a wide range of bacterial infections.
- **Lactic Acid Bacillus (1.66 Million CFU):** A probiotic that restores and maintains gut flora disrupted by antibiotic therapy.

### Uses:

1. **Bacterial Infections:**
  - Respiratory tract infections (e.g., bronchitis, sinusitis, tonsillitis)
  - Skin and soft tissue infections
  - Urinary tract infections (UTIs)
  - Gastrointestinal infections
2. **Prevention of Antibiotic-Associated Diarrhea:**
  - Maintains gut health by reducing the risk of diarrhea caused by antibiotics.

### Mechanism of Action:

- **Amoxicillin:** Inhibits bacterial cell wall synthesis, leading to the destruction of bacteria.

- **Lactic Acid Bacillus:** Produces lactic acid, which helps restore the natural gut microbiota balance, prevents the growth of harmful bacteria, and supports digestion.

### Dosage & Administration:

- **Recommended Dose:** One capsule two to three times daily or as prescribed by your doctor.
- **Route of Administration:** Oral, preferably after meals to minimize gastric discomfort.
- **Duration:** Complete the full course as prescribed to ensure effective treatment and prevent resistance.

### Contraindications:

- Allergy or hypersensitivity to Amoxicillin, penicillins, or any capsule ingredient.
- History of severe allergic reactions to beta-lactam antibiotics.

### Side Effects:

- **Common:**
  - Nausea, vomiting, or diarrhea
  - Skin rash or mild allergic reactions
- **Rare:**
  - Severe allergic reactions (e.g., anaphylaxis)
  - Abdominal cramps or bloating (from probiotics)

## **Precautions:**

- **Inform your doctor about any allergies or history of antibiotic resistance.**
  - **Use with caution in patients with kidney or liver impairment.**
  - **Avoid excessive alcohol consumption during treatment.**
  - **Complete the full course of antibiotics even if symptoms improve.**
- 

## **Storage:**

- **Store at a temperature below 25°C in a cool, dry place.**
  - **Protect from direct sunlight and moisture.**
  - **Keep out of reach of children.**
- 

**Note: This combination capsule is not effective against viral infections such as the flu or common cold. Always take the medication under medical supervision. If symptoms persist or side effects worsen, consult your healthcare provider immediately.**
