

# Mucipoly AB Tablet

**Acebrophylline (100mg) + Acetylcysteine  
(600mg) Tablet**

associated with viral or bacterial  
infections affecting the  
respiratory system.

---

## Description:

This combination tablet contains Acebrophylline and Acetylcysteine, two powerful agents used in managing respiratory disorders. It helps in improving airway function, reducing inflammation, and clearing mucus, making it beneficial for conditions such as chronic obstructive pulmonary disease (COPD), asthma, and bronchitis.

---

## Composition:

Each tablet contains:

- **Acebrophylline: 100 mg**
- **Acetylcysteine: 600 mg**

---

## Indications:

This tablet is typically prescribed for:

- 1. Chronic Respiratory Conditions:**
  - COPD, chronic bronchitis, and emphysema.
- 2. Asthma Management:**
  - Helps in bronchodilation and mucolysis to improve breathing.
- 3. Cough and Cold:**
  - Relief from productive cough and mucus buildup in the airways.
- 4. Acute Respiratory Infections:**
  - Helps in managing symptoms

---

## Mechanism of Action:

- 1. Acebrophylline:**
  - **Bronchodilator and anti-inflammatory:** Relaxes the smooth muscles of the airways, opening them up and facilitating easier airflow. It also reduces inflammation in the bronchial tubes.
- 2. Acetylcysteine:**
  - **Mucolytic agent:** Breaks down thick mucus, making it easier to clear from the airways and helps in relieving congestion.
  - **Also acts as an antioxidant,** protecting the lungs from damage caused by oxidative stress and supporting overall lung health.

---

## Dosage and Administration:

- **Recommended Dose:**
  - 1 tablet twice daily or as prescribed by your healthcare provider.
- **Route of Administration:**
  - **Oral use.** Take with a full glass of water.

---
